13. Records Series Description

Records created by the Speech and Hearing Program, defunct since 2002. The records include documents related to testing, diagnosis, treatment and therapy for speech and hearing disorders. The clients are members of the public. University staff and students participated in providing these health services. The client files are organized by two groups: audiology and speech. These groups are then filed alphabetically by name of client.

The audiology group contains, but is not limited to, chronological logs, evaluations, consent for release of information, permission for evaluation, client information worksheet, photocopies of medical insurance information, invoice with detailed charge sheet, and referral letters. Some of the audiology client files also contain an extra folder entitled Hearing Aid Information, which contains medical clearance, packing list, repair/remake request forms, hearing aid purchase agreement, hearing aid fitting checklist, safety guide for hearing aid users and product order forms.

The speech group of client files, also filed by client name, frequently contains four different folders. These folders are interfiled together. The four folders are related to 1) permission for evaluation and placement, plus release of information, 2) clinic reports, 3) test forms and SOAP notes and 4) insurance, therapy charges, and appointments.

The retrieval rate is estimated to be once per month and declining. A method of disposition of the records will include the class 3 notice (Wis. Stat. ch. 945) to allow clients to obtain their records.

Records Retention/Disposition Authorization INSTRUCTIONS

1. **Retention/Disposition Authorization (RDA) #:**

Every record series must have a unique assigned number. If the designated records officer is allocating these numbers he/she may assign the number subject to Board approval. Otherwise leave this field blank and the PRB will assign the number.

 - SEQUENTIAL #: Designated Agency Records Officers begins with 0001, 0002, etc. and assigns the number before submitting the RDA for Public Records Board approval. Do not block numbers.
 - SUFFIX: The Suffix is not used for most records series. It is an optional alphabetical character that may be used to indicate different retention periods, different media or different dispositions for all or portions of the same records series.
 2. **Agency #: Use the following:**
 - State Agency: Use Chapter 20, Wis. Stats., assigned 3-digit agency appropriation code.
 - Attached Board/Commission: The agency Records Officer may assign an additional alphabetical character to an autonomous entity attached to the agency.
 - University of Wisconsin: 3-digit statutory code (285) + campus or institution alphabetical code.
 - Local Units of Government, Other Entities: Contact PRB Staff.
 3. **Division #: Use the following:**
 - State Agency or Attached Board/Commission: Use a 3-digit field to indicate division with ownership and financial responsibility for records in this series.
 - University of Wisconsin: Use the 6-digit UDDS # that the UW uses for accounting and budgetary purposes. The first 2 digits indicate major division or college; the last 4, the specific unit.
 4. **Agency, Division and Subdivision Names:**
 - Identify the agency that has legal custody of the records, using correct names, not acronyms or abbreviations.
 5. **Type of Request: Check only one box:**
 - NEW if the request is for approval of an RDA that has never been submitted to the PRB.
 - AMENDED if requesting approval of a change to an RDA that was previously approved by the PRB, with existing RDA number.
 - SUNSET/RENEWED: if the RDA has sunset and is being renewed without amendments (RDA's sunset every 10 years).
 - CLOSED/SUPERSEDED:
 - Closed: If the agency no longer receives, collects, or generates records in this series (*also complete #8, year discontinued and final disposition*)
 - Superseded: Replaced by an existing or previous RDA.
 6. **Prior RDA Number (if applicable) 8 digits**
 - If applicable, indicate prior eight digit RDA #
 7. **Records Series Title:**
 - Assign a brief, descriptive title to the records series, e.g., Vehicle Certification and Verification Reports, Consumer Credit Examination Work Papers. Avoid acronyms, abbreviations and form numbers if possible. However, make sure that users will accurately identify the records series from the title given.
 8. **Records Series Life Cycle Dates: Identify the following:**
 - YEAR CREATED: This is the year the agency first began creating, receiving, collecting or generating records in this series. For continuing series, only indicate this part of the life cycle.
 - YEAR DISCONTINUED: Only complete this part if the agency no longer has any responsibility to receive, collect, generate or otherwise create records in this series; if the series is obsolete.
 - YEAR OF FINAL DISPOSITION: Only complete this section of the life cycle if there is a year discontinued. Disposition=year discontinued + period of time to retain records (#10 below).
 9. **Type of Medium:** Indicate medium on which records information is stored: paper, machine readable, etc.
 10. **Retain: (SPECIFY ACTUAL PERIOD):** Enter number of years, months, weeks, or check "Permanent" to indicate period of time for retaining the records. Provide justification to the PRB for proposed permanent retention or retention period of 25 years or more.
 11. **After: (SPECIFY EVENT):** If no event is specified in this field, records retention period begins with record creation. Use this field only to indicate that a specific event must occur prior to the retention period starting. If closed, specify the event that closes the file.
 12. **And: (DISPOSITION):** Check the appropriate category to indicate disposition of the records after the retention period has expired. Only one disposition may be checked.
 13. **Records Series Description:** A records series is defined in s.16.61(2)(c), Wis. Stats. The description is the most important section of the RDA. It tells the PRB and others who are unfamiliar with the records series what information is contained in it and why the series is created and maintained. Include statute or rule citations in the description to clarify the content of the records and the authorization to create them. Also add additional information to the description if needed for agency staff to manage the records, i.e., conditions that must be met prior to disposition.
 14. **Filing Arrangement:** Check one or more boxes to indicate how the records series is filed.
 15. **Records Contain Personally Identifiable Information:** Check YES or NO. 1991 Wisconsin Acts 39, 269 and 317 require agencies to identify records series that contain personally identifiable information, i.e., information that can be associated with a particular individual through one or more identifiers or other information or circumstances, excluding the following:
 - Mailing Lists
 - Telephone Directories
 - Records Series pertaining exclusively to employees of the agency
 - Records Series relating to state agency procurement or budgeting**Contact Name/Telephone Number:** The law also requires the agency to identify who may be contacted for further information on such records series [s.16.61(3)(u), Stats].
 16. **Records Series is Confidential:** Check either YES or NO. Provide citation authorizing records series confidentiality, or provide written justification to PRB explaining records confidentiality.
 17. **Approval Signature:** One agency official (Agency Program Manager) and the Agency Records Officer must sign the RDA. It is recommended to have the Agency Legal Counsel, Risk Manager and Legal Custodian of the records review and approve the RDA before submitting it to the PRB for approval. PRB approval is required prior to implementation.
- Contact PRB staff at the Wisconsin Department of Administration, Records Management Section, for RDA training information and assistance: Telephone: (608) 266-2995 or email Kathleen.Gerke@Wisconsin.gov
